

# LMark Documentation

By sam-astro

This is the documentation for *LMark*, written in *LMark*.

You can very easily write **Markdown** style text, which is compiled into **LaTeX** to allow for extreme customizability, but maintaining the simplicity of **Markdown** to allow for very fast note-taking.

This is a bullet point

Equation:

$$\begin{aligned} E^3 &= mF + b \\ \sum E^3 &= mF + b \\ \frac{x+5}{2+x^7} \end{aligned}$$
